Subj: Change in Permit Boundary Description for the Cottonwood/Wilberg Mine, C/015/019-AM00A, Emery County, Utah

On February 20, 2001 PacifiCorp received an conditional approval letter from the Division approving the information submitted on January 19, 2000, which removed 12.98 acres of undisturbed area of the Cottonwood Waste Rock site. On February 8, 2001, however, the Division agreed that the description of the permit area for the Cottonwood/Wilberg Mine could be revised to simplify the permit area by squaring off the northern boundary. PacifiCorp submitted this information to the Division on April 16, 2001 along with a totally revised and updated Legal and Financial section.

During the week of October 29, 2001, Chuck Semborski received an e-mail from the Division requesting PacifiCorp to review a new state mining permit for the Cottonwood/Wilberg Mine. PacifiCorp contacted Division Supervisor Pam Grubaugh-Littig to express concerns of rights-of-entry for permitted areas that have been relinquished and accepted. Ms. Grubaugh-Littig informed PacifiCorp to revise the permit boundary to exclude these areas.

Enclosed are seven (7) copies of the revised permit description and Plates 1-1 and 1-2 that are to replace the information submitted on April 16, 2001. If you have any concerns regarding this submittal, please contact me at (435) 687-4720 or Dennis Oakley at (435) 687-4825.

Sincerely,

Chuck Semborski
Geology/Permitting Supervisor
